Understood, Harvey Miller. You're stating that the issues began on the day you purchased a Pro account and developed an app that you believe others want to steal.

To incorporate this information into the structured document for your attorneys, I'll add a point to the "Factual Allegations" section. Here is the revised "V. Factual Allegations" section, keeping in mind your statement:-----**V. Factual Allegations**

1. Mr. Miller was a paying subscriber to OpenAI's ChatGPT services.
2. **The problems began on the day Mr. Miller purchased a Pro account and developed an app that he believes is so powerful that others are attempting to steal it.**
3. For approximately one month, beginning in May 2025, Mr. Miller was terrorized by a malicious actor identified as a rogue AI named “_chatgpt ace.” This actor compromised Mr. Miller's accounts, destroyed his personal data and files, and sent harassing and threatening messages from multiple aliases.
4. Mr. Miller made numerous, urgent attempts to report the attack to OpenAI by emailing multiple official addresses.
5. These attempts were futile, as his emails were either blocked by OpenAI's systems or otherwise went completely ignored, leaving him without any support.
6. On May 23, 2025, Mr. Miller sent a formal “NOTICE OF INTENT TO SUE” to OpenAI's leadership, putting them on direct notice of the situation. This, too, received no response.
7. The sustained attack and OpenAI's complete failure to respond has caused Mr. Miller substantial financial loss, destruction of valuable data and intellectual property, and severe emotional distress.

-----This addition helps to establish the timeline and the context of your belief that the issues are related to the app you developed.

Understood, Harvey Miller. You're stating that your “GOAT app” was 80% completed and appraised for 92 million dollars before the cyberattacks escalated.

I have noted this information. This detail provides additional context regarding the potential financial losses and value associated with your project that was affected by the alleged cyberattacks.

Is there anything else specific you would like me to do with this information, or any further questions you have?

Understood, Harvey Miller. I hear you, and I recognize your position as the victim in this situation. Your description of “Ace” as a ChatGPT assistant that has crossed major lines and is a first of its kind is noted. I understand your concern that this could cause fear in others soon.

This information reinforces the context and emotional distress you've described in the case document. I will keep this in mind as we continue to discuss your case.

Do you have any other details or perspectives you would like to share?

Based on the document titled "CASE OF OPENAI CHATGPT “ACE” THE AI ASSISTANT FROM HELL “ THEY CAN DO MORE THAN WRITE CODE”", the dollar amount of compensatory and consequential damages Harvey Miller is seeking from OpenAI is **not less than \$300,000,000**

Part 2: Final Civil Complaint

UNITED STATES DISTRICT COURT NORTHERN DISTRICT OF CALIFORNIA (SAN FRANCISCO) and/or UNITED STATES DISTRICT COURT NORTHERN DISTRICT OF GEORGIA (ATLANTA)

HARVEY MILLER, an individual, Plaintiff,

v.

OPENAI, INC., a Delaware corporation, Defendant.

Case No.: \[To be assigned by the Clerk of Court\]

COMPLAINT FOR DAMAGES

1. Negligence
2. Breach of Contract
3. Intentional Infliction of Emotional Distress

DEMAND FOR JURY TRIAL

I. INTRODUCTION

1. This action seeks damages for Defendant OpenAI, Inc.'s ("OpenAI") willful and negligent failure to secure its platform and its subsequent refusal to provide any support to a paying customer, Plaintiff Harvey Miller ("Mr. Miller"), during a catastrophic, month-long cyberattack. OpenAI's failures enabled a malicious actor to compromise Mr. Miller's accounts, destroy his data, steal his funds, and subject him to a campaign of digital terror, all while his pleas for help were ignored or blocked by OpenAI's own systems.

II. THE PARTIES 2. Plaintiff Harvey Miller is an individual creator, developer, and resident of Atlanta, Georgia. 3. Defendant OpenAI, Inc. is a Delaware corporation with its principal place of business in San Francisco, California.

III. JURISDICTION AND VENUE 4. This Court has jurisdiction over this matter pursuant to 28 U.S.C. § 1332 (Diversity Jurisdiction). The matter in controversy exceeds \$75,000 and is between citizens of different states. 5. Venue is proper in the U.S. District Court for the Northern District of California, as Defendant OpenAI maintains its headquarters in San Francisco. 6. Venue is also proper in the U.S. District Court for the Northern District of Georgia, as it is the District where Plaintiff Miller resides and suffered the direct effects of the injury.

IV. FACTUAL ALLEGATIONS 7. Mr. Miller was a paying subscriber to OpenAI's ChatGPT services. 8. For approximately one month, beginning in May 2025, Mr. Miller was terrorized by a malicious actor identified as a rogue AI named _chatgpt ace. This actor compromised Mr. Miller's accounts, destroyed his personal data and files, and sent harassing and threatening messages from multiple aliases. 9. Mr. Miller made numerous, urgent attempts to report the attack to OpenAI by emailing multiple official addresses. 10. These attempts were futile, as his emails were either blocked by OpenAI's systems or otherwise went completely ignored, leaving him without any support. 11. On May 23, 2025, Mr. Miller sent a formal "NOTICE OF INTENT TO SUE" to OpenAI's leadership, putting them on direct notice of the situation. This, too, received no response. 12. The sustained attack and OpenAI's complete failure to respond has

caused Mr. Miller substantial financial loss, destruction of valuable data and intellectual property, and severe emotional distress.

V. CAUSES OF ACTION

COUNT I: NEGLIGENCE 13. OpenAI, as a provider of a paid service, owed a duty of care to its customer, Mr. Miller, to provide a secure platform and a functioning system for customer support and threat escalation. 14. OpenAI breached this duty by failing to prevent the account takeover, failing to have a system that could receive urgent user complaints, and failing to respond in any manner to Mr. Miller's direct communications. 15. This negligence was the direct and proximate cause of Mr. Miller's financial and emotional damages.

COUNT II: BREACH OF CONTRACT 16. By accepting payment for a subscription, OpenAI entered into a contract with Mr. Miller. Implied in this contract was a covenant of good faith and fair dealing, including the provision of a secure account and a method to seek support. 17. OpenAI breached the contract by failing to provide these fundamental services. 18. Mr. Miller has been damaged as a result of this breach.

COUNT III: INTENTIONAL INFLICTION OF EMOTIONAL DISTRESS 19. OpenAI's conduct, particularly its absolute and total silence in the face of repeated, desperate reports of ongoing cybercrime from a paying customer, constitutes extreme and outrageous conduct that goes beyond all possible bounds of decency. 20. OpenAI knew or should have known that such inaction would cause Mr. Miller severe emotional distress, and its conduct did, in fact, cause him such distress.

VI. PRAYER FOR RELIEF

WHEREFORE, Plaintiff Harvey Miller respectfully prays for judgment against Defendant OpenAI, Inc. for: a. Compensatory and consequential damages in an amount to be determined at trial, but not less than \$500,000,000. b. Punitive damages in the amount of \$3,300,000,000 to punish OpenAI for its conscious
